
EVERYTHING

Miss B

This logo is inspired by how I'm occasionally addressed as Ms. B a nickname I like because it's used by a few important people in my life. The B not only represents my name but also reflects my ambition, Miss Billionaire because I love spondulicks and aspire to great success. The M is designed in the shape of the Gemini star sign symbol, connecting to my birthday while giving the logo a unique and stylish form. Altogether, the logo represents my identity, my nickname, and my aspirations.

Set the Mood and Vibes

I love what I love and I'm fine wwith it!

Spondulicks

Assignment Reflection

The hardest part was creating the logo. I first thought of using my birth date or the first letter of my name, but I didn't like them until I found the perfect logo. I removed many previous logo ideas and decided not to write my birthday since the logo already hints at it. The design shows who I am and my interests. It's a visual summary of my personality and what I love.
